volumes 313/314, 1995

Rotifera VII

Proceedings of the
Seventh Rotifer Symposium,
held in Mikołajki, Poland,
6–11 June 1994

Guest Editors:
J. Ejsmont-Karabin & R.M. Pontin

Hydrobiologia publishes original articles in the fields of fundamental limnology and marine biology.

The scope of the journal is wide and includes ecology, physiology, biogeography, methodology and taxonomy. Applied (technological) papers should be of general, not solely technical interest. Very long papers and review papers will be printed on invitation only. Proceedings of specialized symposia may also be accepted for publication, if the scientific standard set by the journal is met.

Editorial policy. All papers submitted will be considered for publication. They will be evaluated by the editors and referees on the basis of their data and ideas, which should be of more than regional significance. For example, local faunal lists, or chemical 'inventories' of waters not supplemented by interpretations of a more general nature are not acceptable.

Papers should be submitted with the understanding that they are unpublished, and not printed, submitted or accepted for publication elsewhere.

Photocopying. *In the U.S.A.*: This journal is registered at the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923.
Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Kluwer Academic Publishers for users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the fee of USD 8.00 per copy is paid directly to CCC. For those organizations that have been granted a photocopy licence by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 0018–8158/95/USD 8.00.
Authorization does not extend to other kinds of copying, such as that for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.
In the rest of the world: Permission to photocopy must be obtained from the copyright owner. Please apply to Kluwer Academic Publishers, P.O. Box 17, 3300 AA Dordrecht, The Netherlands.

Hydrobiologia is published weekly.
Subscription price (1994–1995, 23 volumes of 3 issues): USD 4776.00 including postage and handling.
Second-class postage paid at Rahway, N.J. USPS No. 568–290.
U.S. Mailing Agent: Mercury Airfreight International Ltd., 2323 Randolph Ave., Avenel, N.J. 07001.
Published by Kluwer Academic Publishers, Spuiboulevard 50, P.O. Box 17, 3300 AA Dordrecht, The Netherlands, and 101 Philip Drive, Norwell, MA 02061, U.S.A.
Postmaster: Please send all address corrections to: *Hydrobiologia,* c/o Mercury Airfreight International Ltd., 2323 Randolph Ave., Avenel, NJ 07001, U.S.A.

Contents

Preface ix

Photograph and list of participants ..... x–xi

PART I: HISTORY OF ROTIFER RESEARCH

One hundred years of Polish rotiferology – scientists and their work
by A. Hillbricht-Ilkowska 1–14

PART II: BIOGEOGRAPHY

Dispersal-limited zooplankton distribution and community composition in new ponds
by D.G. Jenkins 15–20

Rotifer occurrence in relation to age, depth and trophic state of quarry lakes
by J. Ejsmont-Karabin 21–28

Rotifers from the Canadian High Arctic (Devon Island, Northwest Territories)
by W.H. De Smet & L. Beyens 29–34

Additions to the rotifer fauna of south-east Asia: new and rare species from north-east Thailand
by L.-O. Sanoamuang, H. Segers & H.J. Dumont 35–45

Associations of planktonic and periphytic rotifers in a Malaysian estuary and two nearby ponds
by J. Green 47–56

Rotifer assemblages in the Neva Bay, Russia: principles of formation, present state and perspectives
by I.V. Telesh 57–62

Periphytic rotifer communities of an Australian seasonal floodplain pool
by R.M. Pontin & R.J. Shiel 63–67

Factors affecting the distribution of benthic and littoral rotifers in a large marine lagoon, together with the description of a new species
by A. Saunders-Davies 69–74

Distribution and ecology of rotifer communities from high-altitude alpine sites – a multivariate approach
by Ch.D. Jersabek 75–89

PART III: SYSTEMATICS, EVOLUTION & GENETICS

Rotatory apparatus in in Bdelloids
by G. Melone & C. Ricci 91–98

Numerical taxonomic studies of the genus *Notholca*
by T. Nogrady & R.L. Wallace 99–104

Mating behavior and mate recognition pheromone blocking of male receptors in *Brachionus plicatilis* Müller (Rotifera)
by R. Rico-Martinez & T.W. Snell 105–110
Behavioral reproductive isolation among sympatric strains of *Brachionus plicatilis* Müller 1786: insights into the status of this taxonomic species
by A. Gómez & M. Serra 111–119
Nomenclatural consequences of some recent studies on *Brachionus plicatilis* (Rotifera, Brachionidae)
by H. Segers 121–127

PART IV: ANATOMY AND MORPHOLOGY
Localization and neuroanatomy of catecholaminergic neurons in some rotifer species
by E.A. Kotikova 123–122
SEM of internal structures of *Brachionus plicatilis* (Rotifera)
by W. Kleinow & H. Wratil 129–132
Larval metamorphosis in sessile rotifers
by L.A. Kutikova 133–138
Influence of temperature on morphological variation in populations of *Keratella cochlearis* (Gosse) in Rybnik Reservoir
by I. Bielañska-Grajner 139–146

PART V: METABOLIC PROCESSES
Oxygen consumption rate in rotifers
by G.A. Galkovskaya 147–156
Growth pattern of four strains of a Bdelloid rotifer species: egg size and numbers
by C. Ricci 157–163
Egg size in relation to body size in rotifers: an indication of reproductive strategy?
by N. Walz, S.S.S. Sarma & U. Benker 165–170

PART VI: BIOCHEMISTRY
Enzyme activity measurements on isolated organs of *Brachionus plicatilis* (Rotifera)
by W. Kleinow & A. Röhrig 171–174
Physiological adaptations in the survival of rotifers (*Brachionus plicatilis*, O.F. Müller) at low temperatures
by E. Lubzens, D. Rankevich, G. Kolodny, O. Gibson, A. Cohen & M. Khayat 175–183
Effect of diets containing γ-linolenic acid on n-6 highly unsaturated fatty acid content of rotifer (*Brachionus plicatilis*)
by J.H. Robin 185–190

PART VII: BEHAVIOUR
Near-coronal fluid flow patterns and food cell manipulation in the rotifer *Brachionus calyciflorus*
by P.L. Starkweather 191–195

Modification of the swimming behaviour of *Brachionus calyciflorus* (Pallas) according to food environment and individual nutritive state
by C. Charoy 197–204
Habitat-specific predation susceptibilities of a littoral rotifer to two invertebrate predators
by E.J. Walsh 205–211
Predatory behavior of *Cupelopagis vorax* (Rotifera; Collothecacea; Atrochidae) on protozoan prey
by D.J. Bevington, C. White & R.L. Wallace 213–217

PART VIII: ECOPHYSIOLOGY
Feeding biology of two brachionid rotifers: *Brachionus quadridentatus* and *Brachionus plicatilis*
by R. Heerkloss & S. Hlawa 219–221
Resting eggs of the marine rotifer *Brachionus plicatilis* Müller: development and effect of irradiation on hatching
by A. Hagiwara, N. Hoshi, F. Kawahara, K. Tominaga & K. Hirayama 223–229

PART IX: ECOTOXICOLOGY
Rotifers in ecotoxicology: a review
by T.W. Snell & C.R. Janssen 231–247
Relative importance of the trophic and direct pathways on PCB contamination in the rotifer species *Brachionus calyciflorus* (Pallas)
by C. Joaquim-Justo, V. Gosselain, J.P. Descy & J.P. Thomé 249–257
The conservation value of English urban ponds in terms of their rotifer fauna
by J.M. Langley, S. Kett, R.S. Al-Khalili & Ch.J. Humphrey 259–266

PART X: ECOLOGY
Relation to habitat in rotifers
by B. Pejler 267–278
Disturbance and population dynamics of rotifers in bed sediments
by J.M. Schmid-Araya 279–301
Population dynamics of oxiclinal species in lake Arcas-2 (Spain)
by M.R. Miracle & X. Armengol-Díaz 291–301
Temporal and vertical distribution of planktonic rotifers in a meromictic crater lake, Lake Nyahirya (Western Uganda)
by Y.S. Kizito & A. Nauwerck 303–312
Dominant rotifers of Võrtsjärv (Estonia)
by J. Haberman 313–317
Rotifers of the Kalahari Gemsbok National Park, South Africa
by C.K. Brain, I. Fourie & R.J. Shiel 319–324
Comparison of rotifer communities in Maranhão Reservoir (Portugal) before its complete emptying and on refilling
by M.C. Crispim & M.J. Boavida 325–332

The effect of lake fertilisation on the rotifers of Seathwaite Tarn, an acidified lake in the English Lake District
by L. May 333–340
Inter-annual variation of rotifer biomass in two coastal lagoons of the Southern Baltic differing by degree of trophy
by B. Adamkiewicz-Chojnacka & R. Heerkloss 341–344
Induction of diapausing amictic eggs in *Synchaeta pectinata*
by J.J. Gilbert & D.K. Schreiber 345–350
The genus *Polyarthra* in Lake Peipsi
by T. Virro 351–357
Effects of fluctuating temperatures on the population dynamics of *Hexarthra bulgarica* (Wiszniewski) from high mountain lakes in Sierra Nevada (Spain)
by R. Morales-Baquero, P. Carrillo & L. Cruz-Pizarro 359–363
Mictic patterns of the rotifer *Brachionus plicatilis* Müller in small ponds
by M.J. Carmona, A. Gómez & M. Serra 365–371
Desiccation survival of the eggs of the rotifer *Adineta vaga* (Davis, 1873)
by A. Örstan 373–375
Epizoic mode of life in *Brachionus rubens* Ehrenberg as a deterrent against predation by *Asplanchna intermedia* Hudson
by N. Iyer & T.R. Rao 377–380
Influence of the filamentous cyanobacterium *Planktothrix agardhii* on population growth and reproductive pattern of the rotifer *Brachionus calyciflorus*
by G. Weithoff & N. Walz 381–386
Effects of interference and exploitative competition from large-bodied cladocerans on rotifer community structure
by S.C. Fradkin 387–393

PART XI: BIOTECHOLOGY
Use of swimming speed and egg ratio as predictors of the status of rotifer cultures in aquaculture
by J. Korstad, A. Neyts, T. Danielsen, I. Overrein & Y. Olsen 395–398
Population growth dynamics of the rotifer *Brachionus plicatilis* cultured in non-limiting food condition
by M. Yúfera & N. Navarro 399–405
